**DETAILED ACTION**

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-18, drawn to a device, classified in class 257, subclass 456.
- II. Claims 19-36, drawn to a method of making, classified in class 438, subclass 253.
- III. Claims 37-43, drawn to a method of using, classified in class 365, subclass 195.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and III are related as process of making and process of using the product. The use as claimed cannot be practiced with a materially different product. Since the product is not allowable, restriction is proper between said method of making and method of using. The product claim will be examined along with the elected invention (MPEP § 806.05(i)).
